

TEXAS COLLEGE CHURCH

Texas

The more than one million college students who are spread across the state are a priority mission field for Texas Baptists churches.

Developed with local church leaders in mind, Texas College Church works to help churches do all they can to reach the students in their community. By providing networking opportunities, suggesting resources for Bible studies, and leading training events for collegiate ministry leaders, Texas College Church facilitates a network to support one another as we all work to reach the upcoming generations.

Each year Texas College Church hosts a retreat for collegiate ministry leaders from around the state. Funding from the Cooperative Program supports collegiate ministry in Texas. These funds help make it possible for Texas College Church to provide the much-needed networking and training.

Let's pray now for Texas College Church, that God would bless their ministry to those who are reaching college students with the Gospel of Christ.
